## **Hold Back Tomorrow**

**Anubis Gate** 

Go on You've got a lot to live for Before blood enters the clotting stage Now there's a fine line between you and your behavior that once was reckless and bursting with rage

It's time to reconsider Your life is turning bitter

So fly into the sun Fly into the sun

No one said it was now or never As time passed you figured it out on your own There's a number of puzzles unsolved in your mind For completion, search and you will find

Beware, your past is calling you out on the edge, you're falling

You fly into the sun Unveiling your deepest secrets Fly into the sun It's only just begun

Trow off your stifling inhibitions Step in, rave and take what belongs to you

Fly into the sun It's only just begun
