

## It's Not The Same

Anuheia

If I could control my heart and my soul  
I wouldn't have to say  
How they're telling and compelling me  
To put this on the table

It's not the same  
When you call  
I don't feel it like I used to  
It's like you're running there behind me  
So watch me go on ahead  
And before you know you'll be  
Trying hard to find me  
I'm sorry  
I'm so sorry

I've become who  
I wanted to but  
You won't do the same  
When you whisper softly  
Your words bounce off me  
And I'm like  
You're waiting there in vain

It's not the same when you call  
I don't feel it at all  
And I now don't know what to say  
When your shadow and mine  
Don't link up anymore  
I'm like  
I'm speechless now

We can't change the time of the falling rain  
It comes and it goes, are you listening?  
We can change our minds but our hearts remain  
It's beautiful, but not today  
(2x)

If I could control  
My heart and my soul I  
I wouldn't have to say  
How they're telling and compelling me  
To put this on the table  
I'm sorry
