

Mr. Mellow

Anuheia

Oh oh oh, ohhh yeah
Oh oh oh, ohhh yeah

Come one, come all
Let's seek a rhyme
The doors are open
Jump inside
This place I know is heavenly
It's where we gotta see...

The sun is shining, the weather's nice
The water's perfect, it feels so right
Come one, come all let's take a ride
It's where we gotta be...

You need a change, a different view
To turn the same 'ol into new
Meet Mr. Mellow
I think he got the things for you

Hey Mr. Mellow
You've come in with the breeze
You purify my mind and soul
And help me feel at ease

Help me feel, help me feel
Help me feel at ease
You purify my mind and soul
And help me feel at ease

Mr. Mellow jams music so sweet
He knows the way too easy street
Just when you think the stress got your soul
Mr. Mellow comes to ease your blow

An attitude of confidence
A wave of self assuredness
When haters hate and judges rude
Ask what Mr. Mellow'd do?

Everybody knows, everybody knows why
The sun that shines
The butterflies

You need a change, a different view
To turn the same 'ol into new
Meet Mr. Mellow
I think he got the thing for you

Hey Mr. Mellow how you been old friend
You held it down for me so long
I'm finally back again
Hey Mr. Mellow
You've come in with the breeze
You purify my mind and soul
And help me feel at ease

Help me feel, help me feel
Help me feel at ease
You purify my mind and soul
And help me feel at ease

Ya-a-yo-yo-yo-yo-yo
A-boogie up in here and I'm rocking this mic
For those smothered in the dark
And wanna make it in the light
With the melody so sweet
Here to make your vibes right
Well I think I got the thing for you

When you be swimming in the ocean
Chilling and toking in here we got the notion
To keep your mind a-floatin on top of that commotion
Feelin like you don't know what to do
The worst of the enemies might be you
Wanted you to know that I'm a rainbow too

You need a change a different view
You need a change a different view

You need a change a different view
To turn the same 'ol into new
Meet Mr. Mellow
I think he got the thing for you

Hey Mr. Mellow how you been old friend
You held it down for me so long I'm finally back again
Hey Mr. Mellow
You've come in with the breeze
You purify my mind and soul
And help me feel at ease

Help me feel, help me feel
Help me feel at ease
You purify my mind and soul
And help me feel at ease
