

## Slow Down

Anuheia

Slow down...baby

You gotta slow down down down down...1, 2, 3, 4

I think I've got a problem

But everyone's got problems in their life you see

Well my little problem is that I get so tired of complacency

I always need a change a new face in my life

I long for mental stimulation

But then I realized you gotta take it day by day, one day at a time

Or girl you're gonna lose your mind just sing it...

Slow down, baby

You gotta slow down before you get knocked down

Pushed down to the ground, never get around town

Slow down, baby

You gotta slow down down down down

I had to tell myself to slow down yeah

You're young, take your feet off the gas focus on the task at hand

Just love your man and get a good tan

Listen to a new band read a good book

And focus on your school work girl

You're only 19 you're a queen in the making

Just gotta grow into your crown and sing it

Slow down baby

You gotta slow down before you get let down

Crying all day cause I think I'm in the wrong town

I think I'm in the wrong town

I think I'm in the wrong town

I think I'm in the wrong town

But I gotta slow down, but I gotta but I gotta gotta

Slow down, yeah

He-e-e-ey-ey-e-ey

But I gotta slow down but I gotta

He-e-e-ey-ey-e-ey

But I gotta slow down but I gotta...

He-e-e-ey-ey-e-ey-ey-e-ey Oooohhhh

Slow down
