

Hope in Hell

Anvil

When damnation has begun
And there's nowhere to run
In yourself do believe
What you put out will be about what you receive

You think that you're the only one
Whose chances are slim to none
Living just to find the way
Right from the start true to your heart you must stay, you must stay

Hope in hell, finding love and losing hate
Hope in hell, enjoy your life it's not too late

It's not too late

Salvation is all you need
When damnation has begun
And chances are slim to none
Live your life and find a way
Staright from the heart
Right from the start every day, every way
What I convey, every day

Hope in hell, finding love and losing hate
Hope in hell, enjoy your life, it's not too late

Hope in hell, finding love and losing hate
Hope in hell, don't stand in line, hell can wait
