

## Hope in Hell

Anvil

When damnation has begun  
And there's nowhere to run  
In yourself do believe  
What you put out will be about what you receive

You think that you're the only one  
Whose chances are slim to none  
Living just to find the way  
Right from the start true to your heart you must stay, you must  
stay

Hope in hell, finding love and losing hate  
Hope in hell, enjoy your life it's not too late

It's not too late

Salvation is all you need  
When damnation has begun  
And chances are slim to none  
Live your life and find a way  
Staright from the heart  
Right from the start every day, every way  
What I convey, every day

Hope in hell, finding love and losing hate  
Hope in hell, enjoy your life, it's not too late

Hope in hell, finding love and losing hate  
Hope in hell, don't stand in line, hell can wait
