

## I Want You Both (With Me)

Anvil

I met a girl, her name was Aund, she said  
How do you do?  
I think you're lookin good, like your style  
I wanna get down on you  
She took me home  
She got me stoned  
We rocked all night  
I said honey now that's what I like

Decision - I don't know what to do  
I think that I'm in love with both of you  
I know I must decide which one it will be  
But I want you both - I want you with me  
So c'mon I want you both with me

I met another her name was Sil  
You know that she looked so fine  
I saw her walkin' on up ahead  
Wow, she blew my mind  
I wanna hold her tight  
And get down all night  
But she's so cold to me  
I said honey now why can't she see  
Why can't you see?

I want you both with me

Well Sil she's nice but she's so hard to know  
And she puts me down  
The other loves me and she lets it show, so  
She's hanging around  
I Guess I'll make the most  
And I'll see them both  
'Cause they suit me fine you know honey  
That I lay them all the time.
