

## It's Your Move

Anvil

When you turn is up and you've made a choice  
Waiting to hear your opponent's voice  
It's the never ending game we play  
How will you win or lose and pay?

It's your move  
It's your move  
It's your move  
It's your move

Counting cards and loaded dice  
The cheater's hand and the loser's vice  
Ace of spades and the joker is wild  
The odds against you are stacked and piled

It's your move  
It's your move  
It's your move  
It's your move

It's your move

Move a pawn and protect the king  
To win the game, that's the thing  
Game of cards, a game of chess  
The need to win more than less

It's your move  
It's your move  
It's your move  
It's your move

It's your move
