## **Park That Truck**

Revenge's a dish best served when it's cold I'm a predator, a wolf in the fold Menace to society, a deranged psychopath I'm the bastard who brings on the blood bath Taking vengeance out in the street I'm the criminal police can't defeat Murder, mayhem my claim to fame Brutal violence dominate my game I want to destroy you and your kind By now you know my vengeance is blind I hate you all, you'll be the sacrifice Be the victim of my explosive devise

Park it, park it, park it, park that truck Park it, park it, park it, park that truck Park that truck

Terrorism, anarchy is all that I crave I want to see you all rot in your grave I'm the one that you least suspect A social outcast that gets no respect By now you know my vengeance is blind I want to destroy you and your kind Don't try to cross me, you'll pay the price Be a victim of my explosive device
