## Sins of the Flesh

Incest sodomy sadomasochism and rape In the Christendom make no mistake Bigamy buggery bestiality and pain The whole damn world has gone insane

It's all a question of morality Who's to go to hell Reputed guilt repent thy sins Tell me where this evil begins Whose to judge these bloody deeds It's society's heart that always bleeds

Sins, sins of the flesh Sins, sins of the flesh

Fornication child molestation the consumption of your soul It's hard to believe men can stoop so low Torture murder necrophilia sickness of the mind Outrageous blasphemy against mankind

It's all a question of morality Who's to go to hell And whose to judge these bloody deeds Society's heart that always bleeds

Cold hard facts are sometimes hard to take Look hard in the mirror and pray it's not too late

No more questioning morality 'Cause we all may go to hell God will judge these bloody deeds Damned to hell the devil's fire it feeds
