

## Strength of Steel

Anvil

With the strength of steel  
I'll show you how I feel  
All the weak will kneel  
For the strength of steel

Your mind begins to reel  
With the strength of steel  
Makes your blood congeal  
I have nothing, nothing to conceal  
For the strength of steel  
For the strength of steel

Only power to reveal  
With the strength of steel  
And a love that's real  
For the strength of steel  
A metallic meal

With the strength of steel  
And with my approved seal  
With the strength of steel  
To you I make, make my appeal  
For the strength of steel  
You've got to have a metallic meal  
Just for the love and strength of steel  
For the strength of steel
