

Notice Me

Anya Marina

These are the days like a long summer haze
We're in outer space on the Dark Side of The Moon
In your room

Head to head
Toe to toe
Cracking up
We hijack your brother's stereo:

Rubber Soul
Paul's Boutique
Check Your Head
Public Enemy

I wish you'd do do do do do do . . .

We're the best of friends
Yeah, you tell me everything
Like the girl you like
she don't even know you exist (you insist)

I watch your mouth, check out your mind
I'm so high I might be invisible

I wonder if you notice me (notice me, notice me)
Notice me (notice me, notice me)
I'm the one in your bed

Abbey Road
All Shook Down
Purple Rain
Velvet Underground

I wonder if you notice me (notice me, notice me)
Notice me (notice me, notice me)
I'm the one in your bed.

Do you even notice me me (notice me, notice me)?
Notice me (notice me, notice me)
Check your heart, check your head.
