

## Put My Life On It

Anybody Killa

I put my life on my music and everything around me  
Streets that I was raised on, livin' on so ruggedly  
So I decided way back in the day  
That I'm gonna try and take whateva comes my way  
You know, by workin' hard to get mine, payin' dues  
Tryna make it through, and outsmart some fools  
It's been a long time since I got to sit up straight  
So best believe I'mma snatchin' off plates

Once I put my life on this  
there's nothing left but my guarantee  
(Once I put my...Once I put my..  
Once I put my..Once I put my)  
Once I put my life on this  
There's nothing left but my guarantee  
(Once I put my life on this  
there's nothing left but my guarantee)

I been in this game for so many years  
with no fears, cause my head is clear  
I can see you always tryin' to hate, on what I'm doin'  
but you will never stop, what I'm pursuin'  
Man, I got heart so fuck havin' enemies  
Take it to the stage, and I'll make you just a memory  
I put my life on every word that I say  
My guarantee is that I'm here to stay (So watch for me!)

Once I put my life on this  
there's nothing left but my guarantee  
(Once I put my...Once I put my..  
Once I put my..Once I put my)  
Once I put my life on this  
there's nothing left but my guarantee  
(Once I put my life on this  
there's nothing left but my guarantee)

Mixed tapes, and bootlegs been through it all  
In for the long haul, follow me y'all!  
Put your hands up if you're down for the struggle  
Cause it's time to push through this rubble, uh!  
I got one thing on my mind, willing to grind  
both feet on the ladder, and I'm ready to climb  
Too many mouths to feed, so you gots to believe  
That I put my whole life on what the fuck I achieve  
(And that's my life!)

Once I put my life on this  
there's nothing left but my guarantee  
(Once I put my...Once I put my..  
Once I put my..Once I put my)  
Once I put my life on this  
there's nothing left but my guarantee  
(Once I put my life on this  
there's nothing left but my guarantee)
