

# Bring Them to Light

## Apocalyptica

He's large and ugly giant monster, headless on my back  
This urgent haste in my head  
Materialized in this dark hole world  
No one can help me there  
I know this pain has gone too far  
The fear is now so loud

Kill a child I'm trying to protect myself  
Against your old controlled hate  
Pollution of mind filled all the space and destroyed my light  
At least mine were never allowed

The hardest thing to me is  
Facing the fear I live  
No one can help me now it's under my heart  
I'll come to know the living  
My demons are inside  
I'll bring them all to light

I wanted to hate, i wanted to die  
I wanted to see you sacrificed  
I had to deal with the fear you gave me  
But you fucking never tried to help me  
I was jealous and I was scared  
Nobody ever replaced my pain  
To say I'm not evil, to tell I'm not bad  
Too late, I'm lost in human nature

Leave me be  
Set me free  
Leave me be  
Set me free

The hardest thing to me is  
Facing the fear I live  
No one can help me now it's under my heart  
I'll come to know the living  
My demons are inside  
I'll bring them all to light

Unexpected yet expected  
Emerged from the dark I come to life

You know me, you fear me  
Always me knocking at your door, always around  
Insulted, disrespected,  
Return to the dark into this life

You know me, you fear me(4x)  
you fear me(2x)

The hardest thing to me is  
Facing the fear I live  
No one can help me now it's under my heart  
I will come to know the living  
My demons are inside  
I'll bring them all to light
