

Astral America

Apollo 440

I shall not cease from mental fight
No politics will see me right
No man in space; no space in man
A God shaped hole in a God shaped land

Astral America
La La La L-America

Use up your body; sister sublimate
Burnt up my brain to an Empire State
Liberate me me me domine
Blow me away like J.F.K.

Astral America
La La La L-America
