

## Butterfly Defect

Apoptygma Berzerk

Watching from above  
The deep blue seas  
The yellow fields  
And all the green

But in between  
I see grey smoke  
Cancer like black spots  
Looks just like LA

But there is much more  
There is much more to this  
Than you can see

There is much more to this  
I guarantee - just wait and see

The aeroplanes flying by  
They carry paperclips  
And young blond girls

There is much more  
There is much more to this  
Have a closer look - then you'll see
