

Electricity

Apoptygma Berzerk

All I want is some energy
The ultimate discovery
Electric blue for me
Never more to be free
Electricity
Nuclear and HEB
Carbon fuels from the sea
Wasted electricity

All I want is some energy
Electricity
All we need is to learn to save
A gift for man to throw away
It doesn't change the city cars
The alternative is only one
The final sources of energy
Solar electricity

Electricity
