

Electronic Warfare

Apoptygma Berzerk

A missile body
A missile body
Electronic warefare

Three lives to live
I'm trapped inside my zone
Firing shots, I became the target
I've lost my shields, she's bulletproof
Pressing buttons and shifting gear
You run away from what you fear
She shoots to kill
Electronic Warfare!

A missile body
Electronic warefare

One life to go
You shoot before you aim
I'm reaching for a killer's heart
The only thing I claim
Time is running out
Suppose it's not a game
You reload your gun
Electronic Warfare!

Shut down all the electronic systems
