

## Faceless Fear

**Apoptygma Berzerk**

Faceless fear, you're here again  
Your anxious vibe trying to get in  
You want to take the best of me  
Again you try to get under my skin

I struggle, my senses are off, I despair  
I try to resist, but you're already there  
The feeling I dread is in charge and then  
I relive the nightmare again
