

## Love Never Dies – Part 1

Apoptygma Berzerk

Forever in your arms, you said, forever in my heart  
My love for you will make us both climb higher  
Driven by the power that is burning in our hearts  
You know my faith in you will keep us together

Forever in your arms you said, forever in my heart  
My love for you will make us both climb higher  
I sense your presence in this room, I feel that you are near  
You hold me close and whisper, "Love is forever"

Love is forever...

Love never dies...
