

# All Grown Up

Appleton

On the dark side of my life  
It won't shine cause there's no light  
but I got my own surprise  
Shut your eyes and hold me tight

There's no room for making noise  
There's just room for us and toys  
So don't be scared now when the lights go out  
Let me show you what it's all about

You won't fall back on your own  
Here I come you're not alone  
My oh my oh haven't you grown?

Let's not be polite tonight  
Let me feed your appetite  
playing games from way back when  
I was 9 and you were 10

All grown up now that's the past  
We can play for real at last  
so relax and let it flow  
Let me see how far you'll go

You won't fall back on your own  
Here I come you're not alone  
My oh my oh haven't you grown?

All grown up now that's the past  
We can play for real at last  
So relax and let it flow  
Let me see how far you'll go

You won't fall back on your own  
Here I come you're not alone  
My oh my oh haven't you grown?
