

Before the Dawn

April Wine

Lori, Laura, Lori, Lorelei
Sunshine in the night
You're makin' everything worthwhile
You know I need your love
Pretty lady, help me now
But, do you love me?
I got to know, I've got to know now

Oh, long ago I had a lady
She looked a lot like you
She lied to my face, yeah, such a disgrace
I had to leave, couldn't play the fool
Here I am again in love, baby
I've been this way before
I need your touch, need it so much
I need you, I need you, I do

Baby-baby, be my friend
You know I'm gonna love you all I can
Before the dawn is breakin'
I'm gonna change your mind, yeah-yeah
And, you'll love me, baby, come on love me
Come on Lorelei

If you spent a lifetime thinkin' 'bout the day
Would you know how many nights I've cried?
I see your face in my mind, I've tried
But, I just can't find a way
I need you bad
Babe, you're tearin' me apart
You know, you know I gave you
Every little piece of my heart

Before the dawn is breakin'
I'm gonna change your mind, yeah-yeah
And, you'll love me, baby, come on love me
Come on, Lorelei
