Before the Dawn

Lori, Laura, Lori, Lorelei Sunshine in the night You're makin' everything worthwhile You know I need your love Pretty lady, help me now But, do you love me? I got to know, I've got to know now

Oh, long ago I had a lady She looked a lot like you She lied to my face, yeah, such a disgrace I had to leave, couldn't play the fool Here I am again in love, baby I've been this way before I need your touch, need it so much I need you, I need you, I do

Baby-baby, be my friend You know I'm gonna love you all I can Before the dawn is breakin' I'm gonna change your mind, yeah-yeah And, you'll love me, baby, come on love me Come on Lorelei

If you spent a lifetime thinkin' 'bout the day Would you know how many nights I've cried? I see your face in my mind, I've tried But, I just can't find a way I need you bad Babe, you're tearin' me apart You know, you know I gave you Every little piece of my heart

Before the dawn is breakin' I'm gonna change your mind, yeah-yeah And, you'll love me, baby, come on love me Come on, Lorelei **April Wine**
