

## Believe in Me

April Wine

I woke this morning, from a dream I had of you  
Of a sunny morning, sunshine and dew  
Turn your head around, you know just what to do  
It's those summer nights that I spent with you

Walk on (walk on), and believe in me  
And help us find the love you know we need  
Walk on, and believe in me  
And help us find the love you know we need

In the evening, the wind can set you free  
There's a faith that grew, and stayed with me  
Turn your head around, you know just what to do  
It's those summer nights that I spent with you  
Can you hear the water splashing  
And Grover tryin' to have his own way  
We stood there laughing, like a child who loves to run  
And it's just begun, it's just begun, to set us free

Walk on (walk on), and believe in me  
And help us find the love you know we need  
Walk on, and believe in me  
And help us find the love you know we need
