

Better Do It Well

April Wine

She was a lady, sitting alone
Played out of line
She does a number, out on the floor
She is so fine
Get it up, get it up
Drinkin' my papaya
Good to see things my way, baby
What'd you say, hey?

Tramp of the neighbourhood
Not bad lookin' and feels so good
I knew the lady had something to tell
If you're gonna love me, better do it well

Come on, babe, show me a sign
I wanna know
One says right, one says left
I don't know which way to go
Oh, you got love, you got love
Turn on the lights
Won't you send it my way?
Yeah, come on, we'll do it tonight

Tramp of the neighbourhood
Not bad lookin', feels so good
I knew the lady had something to tell
If you're gonna love me, better do it well

Do you love her? I don't know!
Well, do you need her? I think so!
Do you, do you have to act so blind?
Girl, you got my love and then you leave me behind

Tramp of the neighbourhood
Not bad lookin' and feels so good
I knew the lady had something to tell
If you're gonna love me, better do it well
If you're gonna love me, better do it well
If you're gonna love me, better do it well
Tramp of the neighbourhood
Not bad lookin' and feels so good
I knew the lady had something to tell
If you're gonna love me, better do it well
