

Carry On

April Wine

If the sun refused to shine
And your love's no longer mine
And if I never get no more snow
I couldn't care if the winds don't blow

She said to satisfy my soul, don't you carry on
And love me all morning, and love me when I get home
Love me all morning, and love me when I get home

You know that time won't wait
And pretty soon it's gonna be too late
Still you're drivin' me insane
You know I need your love again

She said to satisfy my soul, don't you carry on
Love me all morning, and love me when I get home
She said, love me all morning, and love me when I get home

Baby, don't you let me down
I think you'd better take a look around
Cause if I never get no more snow
I couldn't care if the winds don't blow

She said to satisfy my soul, don't you carry on
And love me all morning, and love me when I get home
Love me all morning, and love me when I get home
