

Better take it slow  
Feel the shadows flow  
You've been watchin' her for oh so long  
And it shows

Better take it slow  
Feel the shadows flow  
You've been watchin' her for oh so long  
And it shows

When you reach the  
When you see the  
Let her lead the way  
She will reach for you  
She will teach you love  
She will touch your mind

Let the take away the pain  
Make it feel alright  
In the talk to me again  
Make it feel alright  
Make it feel alright  
Make it feel alright  
Make it feel alright
