

# The Band has Just Begun

April Wine

Come talk to the band, and we'll tell you our plan  
We've got alot to say  
That we've worked for awhile, to develop a style  
On tunes for you to play  
We'll sing you a tune, we'll scream and we'll croon  
Some rock 'n' roll for you  
And we'll give you a rush, with a look and a touch  
We'll rock the whole night through  
So we never have to worry, and we'll never have to run  
Our chance to have a party's just begun, oh yeah, oh boy  
The band has just begun

You can sing, you can dance, we can all take a chance  
Come on, lets have some fun  
Try if you will, to remember the thrill  
That the band has just begun  
And now you'll never have to worry, you'll never have to run  
The chance to have a party's just begun, oh yeah, oh boy  
The band has just begun, oh yeah

Come talk to the band, and we'll tell you our plan
