

# Bumble Bees

Aqua

I know I'm not the only flower you see  
But what can I do, you are a good looking bee  
Wham bam, thank you mam

Bumble bee, bump into me  
I am in for pollination  
Bumble bee, take what you see  
I'm in need for your donation  
I can't wait for your invasion

Be my love  
Cause I'm a single flower, feeling free  
Blooming now  
Take me honey, be my favorite bee

Hey Rose I'm ready again  
I've got my radar tuned in on you baby  
I'm all set and ready to land  
I'm the bomb , here I come  
Getting ready for a wham bam

Bumble bee, bump into me  
I am in for pollination  
Bumble bee, take what you see  
I'm in need for your donation  
You don't need no invitation

Wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And one little flower is not enough for a bee, like me

All I know  
Is you're my honey, and I can't say no  
Just a little bit shy  
And so excited, when I see you fly

Hey Rose I'm ready again  
I've got my radar tuned in on you baby  
I'm all set and ready to land  
I'm the bomb, here I come  
Getting ready for a wham bam

Bumble bee, bump into me  
I am in for pollination  
Bumble bee, take what you see  
I'm in need for your donation  
You don't need no invitation

Wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And one little flower is not enough for a bee  
No, one little flower is not enough for a bee, like me

I know I'm not the only flower you see  
But what can I do, you are a good looking bee

Honey, it's a job, it's a dream come true  
You're my favourite flower, when I'm intimate with you

Wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And one little flower is not enough for a bee

Going wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And you, my flower ain't enough for me  
You got to be faithful, it's not fair for a bee  
You got to be faithful, it's not fair for a bee - like me
