

## My Mamma Said

Aqua

We dreamed a dream - woke up and lived it  
We had the music in our hands  
The drops of rain - became a river  
And now it's time to end this dance  
- So thank you

My mamma said that the best thing in life  
Was getting me  
And loving somebody higher than anything  
else in this world baby  
My mamma said that she would give her  
life up for me

My mamma said that the worst thing in life  
Is getting used  
to loving somebody higher than anything  
else in this world baby  
Knowing you're going to  
Knowing you're going to - lose it all

Mamma don't leave - don't go  
Don't run - don't hide - don't cry  
Don't ever feel scared now  
Mamma just crossed just crossed  
To the parallel world

She crossed she crossed to the multiverse  
Circling protons - all vibrations  
Circling neutrons - all vibrations  
Mamma just crossed just crossed to the parallel world  
She crossed she crossed to the multiverse  
And now you're lying there - taking your last breath  
I'm holding back the tears - Oh mamma don't die

My mamma said...

Mamma hold on - give in - let go  
Release yourself from everything out there  
Mamma just crossed just crossed  
To the parallel world  
She crossed she crossed to the multiverse  
Circling electrons - all vibrations  
Circling electrons - all vibrations  
Mamma just crossed just crossed to the parallel world  
She crossed she crossed to the multiverse  
And now you're lying there - taking your last breath  
I'm holding back the tears - Oh mamma don't die
