

# Playmate to Jesus

Aqua

Come here  
Let me take you on a trip  
Leaving in the name of love  
Silence and emptiness

You're among a billion stars  
Please don't say a single word  
All around the galaxy  
Silence and emptiness

Let's go into space  
Heading for Venus  
Fly around the Sun  
Playmate to Jesus  
Everywhere I go, I pray  
For universal love

High above the sky  
Closer to Heaven  
Here among the stars  
All is forgiven  
Everywhere I go, I pray  
For universal love

I'm hearing nothing - is it me or is it you?  
I keep on trying but you're just not coming through  
I see your signal but I keep on losing it  
I'll find your frequency bit by bit

Forgive me  
Please, forgive the things I've done  
Every little matters here  
Life keeps moving on  
Everlasting energy  
Shining all over me  
Falling into gravity  
Silence and emptiness

Let's go into space  
Heading for Venus  
Fly around the Sun  
Playmate to Jesus  
Everywhere I go, I pray  
For universal love

High above the sky  
Closer to Heaven  
Here among the stars  
All is forgiven  
Everywhere I go, I pray  
For universal love

(Can you hear me?) I'm hearing nothing - is it me or is it you?  
(Can you hear me?) I keep on trying but you're just not coming through  
(Can you hear me?) I see your signal but I keep on losing it  
(Can you hear me?) It's magical  
So here we go

Let's go into space  
Heading for Venus  
Fly around the Sun  
Playmate to Jesus  
Everywhere I go, I pray  
For universal love

High above the sky  
Closer to Heaven  
Here among the stars  
All is forgiven  
Everywhere I go, I pray  
For universal love
