

California

Aqualung

Come with me to California
We'll lose our troubles in the sun
Let's fly away

Let's make our grand escape before we come undone
You know I've always been a dreamer
How you laugh at all my silly silly dreams
Let's fly away
Let's make our big mistake before we come undone
Before we come undone, yeah
Oh, come with me to California
Before we come undone

Come with me to California
We'll lose our troubles in the sun
Let's fly away
