

# Everything Changed

Aqualung

Magic drifted through the air touching everybody there  
You came into my life so small altering everything  
Changed

(one plus one)  
I looked into my crystal ball  
(two then three)  
The future wasn't clear at all  
(three then four)  
And yesterday was hard enough  
(distant dream)  
At the top of this precipice

Magic settled on the floor and there she lived forever more  
Turning minutes into hours and days, stumbling, tumbling

Nothing can be the same as it was, I know, I know  
Nothing can be the same as it was, I know, I know

You came into my life so small altering everything  
Changed
