

Put Me Down

Aquilo

These eyes, they have seen it all
But I'm still getting lost
Fools, i have met them all
In a life I've led before

I'm not looking through this broken glass
Afraid of how I'll change
And I can't keep myself the same
When I'm falling to my knees

I'm not gonna let this put me down
I don't even know if I'm gonna stay
I'm not gonna let this put me down
I don't even know if I'm gonna stay

How don't I understand
When it's me that's in control
Too many times I've tried
To keep myself on hold

I'm not looking through this broken glass
Afraid of how I'll change
And I can't keep myself the same
When I'm falling to my knees

I'm not gonna let this put me down
I don't even know if I'm gonna stay
I'm not gonna let this put me down
I don't even know if I'm gonna stay
