

I was awake I overheard your speech.  
My ego dried and sank.  
Talked with your ex and we agreed  
thought of your sister helped us wank.  
I'm sure you know that I have fancied her since she began high  
school.  
But back in then, and I will promise I will let your engine cool.

I have matured, I've come of age, My visions clear.  
But there's still some things that I don't want to hear.  
And I know that it was probably just those E's, but be a bit more  
thoughtful next time, please.

While I'm alive, well, I just drive.  
Each time I scored I just got bored.  
And that's no bollocks ... I am just a slut.
