

## Here We Go

Arab Strap

How am I supposed to walk you home  
When you're at least fifty feet ahead?  
'Cause you walked off in a huff  
And I'm that pissed I can't remember what it was I said

And I don't doubt you wouldn't touch him now  
But let's face it, you always used to go for that kind  
And if you ever really wanted two men at once  
All I'm saying is I better be one of the guys you've got in mind

Here we go, same time, same place  
I don't like the way you kissed his face  
It's not that there's no trust as such  
I'd love to make up, but I've had too much

Now, you know fine well I'm staying  
I've only ever carried out that threat once before  
And even then I couldn't get far  
And your mom came and called me back before I'd even made it to the door

Here we go, same time, same place  
My embarrassment versus your damp face  
We could talk down here or we could talk in bed  
But I'm afraid that's all, as I've already said
