

Shouldn't we be naked, especially tonight?
Instead of being fat, instead of being tight.
If you go, go for good,
don't fucking joke, you know I would.
There's no attempt to make up,
no attempt to sort it out.
And we know wshen we wake up we'll forget what it's about.
If you go, go for good,
no fucking jokes.
Maybe we should.
There's at least a foot between us
- do you really need pyjamas in this heat?
And all we can hear is pissed-up kids in the street.
If you go, go for good.
Don't fucking joke, you know I would.
If you go, go for good.
D do you really think I ever could?
I really wish you fucking would.
