

# A New Sensation

## Arabesque

All winter I'd been so alone  
My heart was freezing to the bone  
A nightmare  
(A nightmare)

My future life was in the dark  
Until I met you in the park  
Hey hi-there  
(Hey hi-there)

At first you were only a stranger  
(A total stranger)  
But now you mean so much to me

\*

A new sensation  
Pure temptation  
Good vibration  
I've been in love before  
But now it's so much more

\*

A new sensation  
Fascination  
Fancy, I love you, I love you  
The magic of three little words  
Means more than all the universe to me

\*

This lovely summer holiday  
Is like no other holiday  
I'm dreaming  
(I'm dreaming)

An island just for you and me  
A beach where no one else can see  
Me dreaming  
(I'm dreaming)

One kiss and the world seems to vanish  
(It seems to vanish)  
When I feel the heavenly bliss

\* (Repeat)

\*\* Repeat

I can see the lovelights burn  
On the point of no return
