```
All winter I'd been so alone
My heart was freezing to the bone
A nightmare
(A nightmare)
My future life was in the dark
Until I met you in the park
Hey hi-there
(Hey hi-there)
At first you were only a stranger
(A total stranger)
But now you mean so much to me
A new sensation
Pure temptation
Good vibration
I've been in love before
But now it's so much more
A new sensation
Fascination
Fancy, I love you, I love you
The magic of three little words
Means more than all the universe to me
This lovely summer holiday
Is like no other holiday
I'm dreaming
(I'm dreaming)
An island just for you and me
A beach where no one else can see
Me dreaming
(I'm dreaming)
One kiss and the world seems to vanish
(It seems to vanish)
When I feel the heavenly bliss
* (Repeat)
** Repeat
I can see the lovelights burn
On the point of no return
```
