

Angel Face

Arabesque

People live like devils
People live like saints
But when life is over
They all seem to have the same
Angel face, angel face
People go to heaven
People go to hell
But they never know
Until the great one rings the bell
Angel face, angel face

Angel face
Where is paradise
Your wings are broken
So you cannot fly
Angel face
Devil in disguise
I see the token
Of the evil eye

People can be strangers
People fall in love
Just one four leaf clover
Makes them praise the lord above
Angel face, angel face
People can be crazy
People can be wise
But they all are lazy
When at last they close their eyes
Angel face, angel face

Angel face
Where is paradise
Your wings are broken
So you cannot fly
Angel face
Devil in disguise
I see the token
Of the evil eye

You will always be my loving angel
Till you day you have to say good bye

Angel face
Where is paradise
Your wings are broken
So you cannot fly
Angel face
Devil in disguise
I see the token
Of the evil eye

Angel face
Where is paradise
Your wings are broken
So you cannot fly
Angel face

Devil in disguise
I see the token
Of the evil eye

Angel face
Where is paradise
You wings are broken
So you cannot fly
Angel face
Devil in disguise
I see the token
Of the evil eye
