

# Heart on Fire

## Arabesque

I met a guy on a summer party  
I looked at him and he looked at me  
A special type, very very smarty  
And it was love to the last degree  
Only one night it took him  
To change my whole life  
Just one more day and I'll be his wife  
(Ooh-ooh-ooh)

Heart, heart on fire  
Temperature is rising higher  
Heart, heart on fire  
I can feel just one desire

Baby do not forsake me  
I have been waiting till you embrace me  
My heart is aching  
Don't let it be breaking  
Gimme your love  
(Love, love, love)

Heart, heart on fire  
Temperature is rising higher  
Heart, heart on fire  
I can feel just one desire

It's like a dream that you keep on dreaming  
Then all at once it's reality  
He took my hand and I knew the meaning  
Of every word he would say to me  
I had been dreaming of him  
But how could I know  
That he would really set me aglow  
(Ooh-ooh-ooh)

Heart, heart on fire  
Temperature is rising higher  
Heart, heart on fire  
I can feel just one desire

Baby do not forsake me  
I have been waiting till you embrace me  
My heart is aching  
Don't let it be breaking  
Gimme your love  
(Love, love, love)

Heart, heart on fire  
Temperature is rising higher  
Heart, heart on fire  
I can feel just one desire

Heart on fire  
(Heart on fire)  
Heart on fire
