

Here Comes the Night Time II

Arcade Fire

Here comes the night time

I hurt myself again
So low we go, my friends
Feels like it never ends
Here comes the night again

Here comes the night time

You hurt yourself again
How low we go, my friends
Feels like it never ends
Here comes the night again

Here comes the night time coming on slow
Here comes the night time, I know that you know
Here comes the night time

Well, I hurt myself again
How low we go, my friends
Feels like it never ends
Here comes the night again

Here comes the night time
