

## Signs of Life

Arcade Fire

Those cool kids  
Stuck in the past  
Apartments of cigarette ash  
Wait outside until it begins  
Won't be the first ones in

Spend your life waiting in life  
You find it hard to define  
But you do it every time  
Then you do it again

Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again  
Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again

First kiss tastes like cigarettes  
Dead man walking take your bets  
Once again you lost your friends  
Around and around again

Those cool kids  
Stuck in the past  
Apartments of cigarette ash  
"Where are we going?"  
Who did you ask?

Those cool kids  
Stuck in the past  
In a world of cigarette ash  
"Where are we going?"  
Who did you ask?  
Who did you ask?

Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again  
Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again

Monday, Tuesday, Wednesday, Thursday  
Friday, Saturday, sometimes Sunday  
Love is hard, sex is easy  
God in heaven, could you please me?

You think you invented life  
You find it hard to define  
But you do it every time  
Then you do it again

Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again  
Still looking for signs of life (Signs of Life)  
Looking for signs every night  
But there's no signs of life  
So we do it again

Those cool kids  
Stuck in the past  
In a world of cigarette ash  
"Where are we going?"  
Who did you ask?  
Who did you ask?

Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again  
Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again

(Still looking)  
Looking for signs of life  
(Signs of life)  
Still looking for signs of life  
(Signs of life)

Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again  
Looking for signs of life  
Looking for signs every night  
But there's no signs of life  
So we do it again
