Signs of Life

Arcade Fire

Those cool kids
Stuck in the past
Apartments of cigarette ash
Wait outside until it begins
Won't be the first ones in

Spend your life waiting in life You find it hard to define But you do it every time Then you do it again

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again

First kiss tastes like cigarettes Dead man walking take your bets Once again you lost your friends Around and around again

Those cool kids
Stuck in the past
Apartments of cigarette ash
"Where are we going?"
Who did you ask?

Those cool kids
Stuck in the past
In a world of cigarette ash
"Where are we going?"
Who did you ask?
Who did you ask?

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again

Monday, Tuesday, Wednesday, Thursday Friday, Saturday, sometimes Sunday Love is hard, sex is easy God in heaven, could you please me?

You think you invented life You find it hard to define But you do it every time Then you do it again Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Still looking for signs of life (Signs of Life)
Looking for signs every night
But there's no signs of life
So we do it again

Those cool kids
Stuck in the past
In a world of cigarette ash
"Where are we going?"
Who did you ask?
Who did you ask?

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again

(Still looking)
Looking for signs of life
(Signs of life)
Still looking for signs of life
(Signs of life)

Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
Looking for signs of life
Looking for signs every night
But there's no signs of life
So we do it again
