

## Vampire/Forest Fire

Arcade Fire

You wanna be set apart?  
Burn all of your art repair the wasteful part  
I'm a vampire in a forest fire  
Hey! we all gotta keep warm  
driving towards the storm

Your father was a pervert  
Face down in the dirt  
He taught you how to hurt  
My father was a miner who lived in the suburbs  
Let's live in the suburbs  
If I let where I'm from burn I can never return!

My brother reads you and me his new poetry  
How embarrassing  
Your sister pours the gasoline  
I'll fix your meals  
while your burns heal!

Find a house you don't have to rebuild  
Stone by stone, brick by brick, nail by nail my father never me  
ant to leave me this  
Let this love last  
I drive too fast  
Said I'd return if I'd ever cared  
But there's no interstate I find to take me there
