

## Black Earth

Arch Enemy

Across the lake of fire  
Through the desserts of decay  
The flames are burning higher  
In this land of death you're easy prey

Black Earth  
Save - Our - Souls

Looking back in anger  
At the twentieth century  
Tormented we surrender  
In artificial serenity

Twisted, torn and burnt  
Violation of the crust  
Man got what man deserved  
Turned the future into dust

A millenary failure  
The dark age has returned  
Waiting for a miracle  
To save the common herd

"In a century of darkness  
The horror spreads within -  
As our planet stops to turn  
All hope is lost for man"
