## Leader of the Rats

**Arch Enemy** 

Crawling in the slime Dirt infested minds Always second best, leader of the rats Spreading their disease

Hiding behind trivial cynicism Venomous tongues spitting forth lies So quick to criticize the life of others Who are you to judge us

On a higher plain Our art lives on forever You are the scum beneath us Fighting your pathetic battle

Anonymous animosity Dirt infested minds

Laughing right into your face As we watch your infantile behaviour Love us or hate us - we don't care We never aimed to please you
