

The Last Enemy

Arch Enemy

Fearless on my final request
Find truth beyond the flesh
Fleeting past my dreams of unfulfilled desire
My strength unwavering
My journey just beginning
A desperate race through the corridors of hell

Chaos emerge - Surrender I will not

The last Enemy Is Falling
Here I am - To Conquer Death Itself
The last Enemy Is Falling
Here I stand - To Conquer Death Itself

Funeral silence beneath the burning cross
My immortal soul sleeps with the wolves tonight
Skin and bones that rot my blood runs dry
See me die to rise with the gods again

Defy... Decay
Arise Again

Chaos emerges
Surrender I will not
