

Under Black Flags We March

Arch Enemy

Your hate is our trigger
Revolution now
The more we have to suffer
The more we will fight

With our fists up in the air!

Legions marching ready to fire
These streets will burn - let the black flag rise
Legions marching ready to fire
Empires of corruption - crash and fall

Under black flags we march...

The voice of rebellion calls your name
Servants of the truth are standing tall

With our fists up in the air!

Legions marching ready to fire
These streets will burn - let the black flag rise
Legions marching ready to fire
Empires of corruption - crash and fall

Legions marching ready to fire
These streets will burn - let the black flag rise
Legions marching ready to fire
Empires of corruption - crash and...
