

Vengeance Is Mine

Arch Enemy

Infestation
Of spirit and flesh

Indignation
Is all you left me with

Domination
Your ultimate goal

Transmigration
You will lose control

I will rise up and prove you wrong
I've been waiting in the shadows for too long

The gates are opening - My true self unleashed

Laceration
Of my mind and soul

Alteration
Your truth is full of lies

Liberation
Sweet revenge is mine

Devastation
You will burn in my hell

I will rise up and prove you wrong
I've been waiting in the shadows for too long

The gates are opening - My true self unleashed

Vengeance is mine!

The gates are opening - My true self unleashed
